Mrs. Sadie C. Mitcaell has brought suit in the district court for a divorce from her husband, Henry B. Mitchell, who was well known in Topeka a few years ago as a clerk in the state auditor's

The only charge against her husband made by Mrs. Mitchell in her petition for a divorce is that of abandonment. Mitchell left Topeka a few years ago after having given checks to a large number of acquaintances and business men in payment of debts when he had no money in bank.

Expensive Economy.

Some people begrudge the little money that an Allcock's Porous Plaster costs, and then when they are racked with pain from a lame back, or from the soreness arising from a cold, they will spend any amount of money to relieve the pain. If they only had one of these world-renowned plasters on hand they would be saved a vast amount of suffering and be considerably richer. At the first sign of stiffness of the joints apply one of these plasters without any delay. The soreness will be greatly relieved at once and soon disappear entirely. It will be money saved to have them on hand, to say nothing of the comfort they bring. Brandreth's Pills contain no irritating

### CULLOM'S SUCCESSOR.

Wants to Succeed Himself but W. E. Mason Would Also Like the Place. Снісаво, April 10.—The Republican state central committee was in session at the Grand Pacific hotel today with the executive committee of the Republican

state league and the Republican state editors as side attraction.

The question of nominating a senatorial candidate was one which it was thought would practically decide the political fate of Senator Shelby M. Cullom. The latter and his friends favored a nomination in convention while Wm. E. Mason, who has expressed a fond desire to succeed Cullom, insisted that the nomination should be made in the time-honored way-in legislative

Mr. Cullom's friends were confident that he would win out in the convention, but feared the result of a party caucus. The senator opened headquarters in one of the hotels and Mr. Mason and his friends gathered at the opposite end of the corridor.

### SENATOR LODGE SPEAKS.

The Tariff is a Business Question Says the Massachusetts Senator.

Washington, April 10.—Senator Lodge addressed the senate in opposition to the pending tariff bill, and in the course of his remarks said:

"It is always well to look at things as they are, even if the thing be free trade, to which some persons in beautiful language have consecrated themselves. It is best, if we would treat it intelligently to know that by itself and of itself, the tariff is a business question and that protection and free trade only take a different and far deeper meaning when they are considered as parts of a question between far reaching principles. He touched lightly upon the question of reciprocity and showed with perspicuity, the advantages which had flowed from it and the growth of trade which followed the adoption of

reciprocity treaties.
"Our first object," he said, "should be to hold our own market, because it is the largest and best; and that being done and our own market securely guarded, our next object should be to increase our In conclusion he said: "There is darkness before and danger's voice behind. While we debate rates of duties the threat of this bill is really breaking down an important part of a broad general policy on which we must rely, unless we are prepared to meet the shock of changes which it would be difficult to portray."

NO FILIBUSTERING. Leaders in the Senate Have Agreed on a

Time for Debate. Washington, April 10.—The leaders of both political parties in the senate held many conferences during the early hours of the day, and an agreement was finally reached for the consideration of the tariff bill during the remainder of

General debate on the bill is to continue from 1 to 5 p. m. each day, and no filibustering motions are to be made. The reading of the bill will not be pressed during that time. They will give four hours general debate each day, taking one hour of which is usually de-voted to the consideration of morning business.

THE ROCK ISLAND HOLD UP. Later Advices from the Scene of Opera-

tions-Lynching Feared. ENID, O. T., April 10.—Later reports from last night's Rock Island holdup differ considerably from the earlier dispatches sent out. It appears that the robbers concealed themselves in the tender of the engine and just when over the Salt Fork creek, about two miles from

Round Pond, the attempt was made to make the hold up. Guard Jake Harmon who was on the train discovered the men before crossing the river and as they were about to hold up the engineer and fireman, Harmon blazed away with his Winchester. The robbers jumped off, but one ran only a few steps and dropped dead. Their pals who were stationed on a break near the track commenced firing and literally

perforated the baggage car.
The citizens of Round Pond captured one of the robbers, who, it developed, has been hanging around Round Fond for several days. The dead robber's name is Pitts, a notorious desperado who has been in several affairs of this kind.
